

# DIVISIBLE BASKET STRETCHER TWIN SHELL

## FEATURES

- **Disassemblable** into **two stackable parts** for better storage and transport
- **Integrated high-density polyethylene shell** for enhanced patient protection
- **Strategically positioned eyelets** offer patient restraint versatility
- **12 ample handholes** for secure grip
- **Aerial lifting capability** with 4 eyelets
- **Perimeter rope** for belt and accessory attachment
- **Adjustable floating footrest** in durable PE available
- **Waterproof mattress** for enhanced patient comfort

The **Twin Shell** is a divisible basket stretcher designed for the recovery and transportation of patients in challenging and high-risk scenarios. Its feature of splitting into two parts makes it capable of being stored in small spaces. It is particularly tailored for rescue operations where safeguarding the patient from side impacts is paramount, and conventional transport equipment falls short.

It features a distinctive high-density polyethylene shell that acts as a protective cocoon for the patient, guarding against side impacts and providing an added layer of safety during rescue operations. Equipped with strategically placed handholes and eyelets, the stretcher can be lifted or carried by multiple operators, making it suitable for a variety of rescue scenarios. Two skids at the bottom of the shell minimize friction during dragging operations, allowing for smoother navigation across different terrains. **Compatible with all Spencer spine boards.**

The Twin Shell basket stretcher is versatile and suited for deployment in challenging rescue situations, including technical rescue, mines, high altitudes, water rescue, air operations, and sporting events.

280 kg / 617 lb

Load Capacity

Easy Transport & Storage

Easy to Clean

## TECHNICAL DATA

Length	214 cm / 84.2 in.
Length when divided	118 cm / 46.4 in.
Width	65 cm / 25.5 in.
Height	20 cm / 7.87 in.
Handles	12
Weight	13,8 kg / 30.4 lb
Material	PE, PP, Al, Steel
Load capacity	280 kg / 617 lb

### THE PRODUCT INCLUDES:

Code STO4011A – Footrest for Shell and Twin Shell

Code ST00592A – STX 592 Yellow belts with metal buckle – 3 pieces

## WHY SHOULD YOU USE THE TWIN SHELL FOR YOUR RESCUE OPERATIONS?

- The TWIN SHELL can be used in any rescue scenarios: it can winched for air lifting, dragged on the ground and used for sea rescue with the addition of floating systems.
- Crafted from high-quality materials, the TWIN SHELL offers a perfect balance between durability and lightweight design.
- Its shell can be divided into two parts so that it can be easily transported and stored in a small space.
- The TWIN SHELL is designed with a secure and rigid shell structure, providing maximum protection to the patient during transport.
- The stretcher is engineered to distribute the patient's weight evenly, preventing pressure points and reducing the potential for additional injuries. This feature is particularly crucial during challenging rescue scenarios where maintaining patient stability is paramount.
- The basket stretcher is equipped with strategically placed handholds and attachment points, facilitating smooth and controlled movement. This enhances the crew's ability to navigate challenging terrains and ensure a secure grip during patient transfer.
- Easy-to-clean materials simplify post-rescue maintenance, promoting efficiency and hygiene in the rescue process.
- The shell of the basket stretcher is large enough to host additional medical and diagnostics equipment for better patient care.

## ACCESSORIES

ST00592A

**STX 592**  
Yellow belt metal  
buckle – 2 pieces

---

ST70002A

**STX 702**  
Black reflex belts with  
metal buckle – 2 pieces

---

ST04522B

**STX 540**  
Fixed lifting bridles  
system

---

ST04519C

**STX 519**  
Adjustable lifting  
bridles system

---

ST04524B

**STX 538**  
Universal floating devices  
for basket stretchers or  
spine boards – 3 pieces

---

ST04525B

**STX 537**  
Universal floating devices  
for basket stretchers or  
spine boards – 1 piece

---

ST04518A

**STX 518**  
Universal floating devices  
for basket stretchers or spine  
boards – 2 pieces

---

ST04110A

**STX 10**  
Twin Shell carry bag
